

# NEW!!

## **Important Changes To Submission Of Health Information/Parental Waivers**

In our continuous efforts to provide the best possible care to our campers and staff, Harford Community College (HCC Kids) is partnering with CampDoc.com.

CampDoc.com is an electronic health and emergency contact record system for camps, and will help us consolidate and integrate camper health information and emergency contact information into a centralized and secure location. Their system will give our camp administrators instant access to critical information.

The security, confidentiality and privacy of your camper's personal health and emergency contact information will always be protected. Only HCC Kids Camp staff will have access to camper health information, and the CampDoc.com site is secure, encrypted and password protected.

After registering for camp, you will receive a "Welcome Email" from CampDoc.com with information about how to complete your camper's health information. You will only need to complete this form once for each child, regardless of how many camps your child will be attending. Depending on the camp, there may be additional camp-specific waiver forms to complete.

- Click the link in the "Welcome Email" to set a new password for your CampDoc.com account.
- Follow the instructions, and complete the health history for your camper. Alerts will appear for any missing required information.
- You may return to your CampDoc.com at any time to make changes/updates to your camper's health information before camp begins.

Please set [register@campdoc.com](mailto:register@campdoc.com) as a 'safe sender' to avoid accidental delivery to junk and spam folders. Also, when you register, please provide us with an up-to-date email to ensure the delivery of the campdoc.com email.

We are excited to continually evolve – building safer, more productive and more efficient systems to create the best experience for you and your family.

We can't wait to see you this summer!
